

4 Digestion

A ginger & vitamin B6-based supplement that supports healthy digestion and gastrointestinal wellness.

Feel better and do better.

An appropriate all-natural supplement that can be used in addition to your prescribed nausea medications.

Chemotherapy, radiation, narcotics, as well as a diagnosis of cancer, contribute to nausea and digestive issues.

**ONCOLOGIST
APPROVED**

Developed by oncologists and oncology pharmacists to minimize interference with cancer treatments and recognizing B6 deficiency is common in cancer patients.

4-Wellness.com

For people with cancer: We **strongly recommend** sharing this information with your oncologist and oncology care team members.

4 Digestion

Information on vitamins and supplements is overwhelming...
What is helpful to take? What should be avoided?

Why choose 4Digestion?

- Supports wellness during and after cancer treatment
- Provides appropriate supplements **in addition to your prescribed nausea medications**
- All-natural and part of a holistic approach to care
- Minimizes interference with cancer treatments
- Designed by cancer doctors and pharmacists
- Backed by science and research

Who should take 4Digestion?

Any person diagnosed with cancer during or after treatment who desires appropriate Gastrointestinal support. Discuss this with your cancer provider/physician if having any GI issues.

What is unique about 4Digestion?

Using the most current references and studies, our cancer doctors and pharmacists have focused on a natural, holistic approach to addressing nausea. 4Digestion is specifically designed for cancer patients, while also minimizing interference with treatments.

For Example:

- Ginger extract is the most useful over-the-counter natural product that has historically been used for nausea with or without prescription antiemetics.
- Vitamin B6 deficiency is common in cancer patients and historically has been used for nausea
- Cinnamon has been historically used for nausea as well.
- Other commonly used over-the-counter supplements can contain sugars or vitamins that may interfere with cancer treatments.
- In addition to 4Digestion; acupuncture, acupressure wristband, CBD +/- THC, and other holistic approaches may support prescribed antiemetics.
