

# 4 Hair

**A natural daily supplement for healthy hair during and after cancer treatment.**

**ONCOLOGIST  
APPROVED**

Unhealthy hair and hair loss are common side effects of cancer treatment.

## **Recommend with Confidence**

Researched and approved by our team of oncologists and oncology-focused pharmacists to not interfere with treatment.

Our specific ingredients promote healthy hair and support regrowth of hair loss without the risk of interfering with treatment.

## Description

A safe daily supplement for healthy hair during and after cancer treatment. It works by:

- Limiting biotin to appropriate doses knowing its effect on blood sugar.
- Limiting zinc to appropriate doses, which may interfere with treatment.
- Focusing on natural ingredients liked hydrolyzed collagen.
- Avoiding ingredients often used in products for hair loss that may interfere with certain cancer treatments (e.g. folic acid).

## Details

### 1. What causes the problem for cancer patients?

- Chemotherapy, radiation therapy, immunotherapy and targeted therapy.
- Certain patients are more susceptible because of synergy from other causes of hair loss.

### 2. What does it do?

- Biotin is a natural daily supplement for healthy hair.
- Vitamin B5 deficiency is a cause of hair loss.
- Vitamin D deficiency is a cause of hair loss.
- Hydrolyzed collagen promotes healthy scalp and hair.
- Zinc promotes healthy hair, but reduces copper, thus the added copper.

### 3. Are we avoiding any ingredients?

- Folic acid may interfere with treatment.
- Iron due to the potential elevation of iron levels.
- Vitamin A, E and C may interfere with cancer treatment.

### 4. Are we controlling any doses?

- Biotin
- B6, depletion from biotin

## Ingredients

All ingredients researched to be non-carcinogenic.

- Biotin 2000 mcg
- Vitamin B5 5 mg as pantothenic acid (100% RDA)
- Zinc 8 mg along with Copper 900 mcg (100% women and 73% men RDA)/100% RDA)
- Hydrolyzed Collagen 100 mg
- Vitamin D 20 mcg as cholecalciferol (100% RDA)

## Discussion

Have you considered the non-pharmaceutical aspects of your patients' treatment? Most physicians don't have time to research the thousands of supplemental products available today. Many patients are concerned about whether they are doing everything possible to assist in their wellness. They research it themselves on the internet and ask friends and family for advice in choosing supplements. This process may be detrimental or interfere with their treatment protocol.

4CancerWellness's team of oncologists and oncology-focused pharmacists research each supplement carefully, ensuring that they will not interfere with treatment or recovery. Doctors and nurses can therefore recommend 4CancerWellness supplements to their patients with confidence. Patients will also feel reassured knowing that their supplements were recommended by their doctor, increasing good will towards the practice.

## Business with 4CancerWellness LLC

### 4CancerWellness branded product line provides:

- Marketing materials designed for patients.
- Easy ordering and fulfillment process.
- An excellent compensation package for practices and networks.

### White label branded product line provides:

- Full service white label branding to your practice or network at a below average cost (branded to your companies identity).
- Easy ordering and fulfillment process.
